**Warning** this information is intended as a guide only. Specifications are subject to change without notice. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.

**Vehicle Loading** every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

**Dry Weights** based on standard features; optional equipment not included. Net Carrying Capacity (NCC) determined by subtracting Unit Base Weight (UBW) from Gross Vehicle Weight Rating (GVWR). Liquid capacities and weights are approximations only.
