

The Classic is built for people committed to a life of adventure, a life enriched by shared experiences, a life well-lived. Designed and equipped for long-term adventures, the Classic epitomizes the traditional craftsmanship, innovation and durability that's made Airstream an icon of the American highway.

Storage capacity, elegant design, private sleeping quarters, and spacious living areas for entertaining old and new friends alike abound in the new Classic. Everything we have learned from decades of experience on the open road has gone into creating the best in comfort, convenience and style.

You'll feel right at home no matter how far you roam.

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.

Vehicle Loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

Dry Weights – based on standard features; optional equipment not included. Net Carrying Capacity (NCC) is determined by subtracting Unit Base Weight (UBW) from the Gross Vehicle Weight Rating (GVWR), and is the capacity available for water, options and cargo. Liquid capacities and weights are approximations only.

Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.
