

adventure, inspired by
AIRSTREAM

Efficiency is in the Sport's DNA, inside and out. This travel trailer is lightweight for fuel economy in towing, and superbly designed with features that more than earn the label "premium compact". In both 16 and 22FB floorplans, the Sport packs a big travel punch – with a maximum of plush comforts and a minimum of wasted space.

Easy to tow and easy to love, the Sport is designed for travelers who want to hitch-up and go!

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle. Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in Canada.

Vehicle Loading – Every effort has been made to provide the greatest number of options for the recreation vehicle owner. Along with these choices comes the responsibility to manage the loads that are imposed by the choices so that they remain within the manufacturer's specified chassis weight limits. Do not overload the recreation vehicle.

Dry Weights - based on standard features; optional equipment not included. Net Carrying Capacity (NCC) is determined by subtracting Unit Base Weight (UBW) from the Gross Vehicle Weight Rating (GVWR), and is the capacity available for water, options and cargo. Liquid capacities and weights are approximations only.

Warning – This information is intended as a guide only. Weights of individual vehicles may vary. Consult your owner's manual for complete loading, weighing, and towing instructions.
