

AIRSTREAM
TRAVEL TRAILER

26 FT. OVERLANDER

SUPREMACY

*airstream's pre-eminence
in travel trailers is
unsurpassed by any product
in any industry. When
you own an airstream,
you know . . . and the world
knows . . . you own the finest
travel trailer built.*

Tandem wheels shown, optional at extra cost.

The Overlander is an outstanding triple-threat star. Within its generous 26' length there are wonderfully comfortable sleeping accommodations for four (or six by adding fold-away bunk beds at slight additional cost), a complete kitchen, bathtub and shower, separate toilet and lavanette with privacy insured by two folding doors. Vacation trips for an entire summer with even a large family are practical for the Overlander or it can serve as a luxurious "home away from home" for those whose work or inclinations keep them on the move. As a true travel trailer, Airstream's sturdy lightweight all metal jet-plane construction makes the Overlander a world explorer. Optional extras such as butane refrigerator, butane water heater, pressurized water supply, septic tank, and battery operated electrical appliances assure its owner independence from outside sources in the remotest areas. A veteran of Wally Byam Caravans on three continents, the Overlander is one of the most capable trailers in the Airstream line and is your magic carpet to real travel-adventure.

*the standard of excellence
in lightweight travel trailers*

AIRSTREAM
TRAILERS, INC.

JACKSON CENTER - SHELBY COUNTY, OHIO

Double bed floor plan
optional at no extra cost.

EXPERIENCE PROVEN LAYOUTS WITH CARAVAN TESTED EQUIPMENT

ALWAYS THESE FAMOUS AIRSTREAM FEATURES . . .

- all steel undercarriage
- structural alloy aluminum shell frame
- hand riveted double shell structural alloy aluminum body
- all-over 2 in. aircraft type fiberglas insulation
- vibration-proof fastenings
- see-thru safe rear vision
- 6 in. airfoam mattresses on all beds
- shock absorbers on all wheels

The ultra-sleek, streamlined appearance of Airstream travel trailers is due in part to the use of jet plane type "stretch-formed" front and rear panels (patent pending). This exclusive process distinguishes Airstream from any other trailer and guarantees the strongest possible lightweight construction and quality unmatched in the industry.
