

# Smart Control Technology

## How to Connect

Your new Airstream Travel Trailer with Smart Technology keeps you connected on the open road. (Currently only available in the United States.)

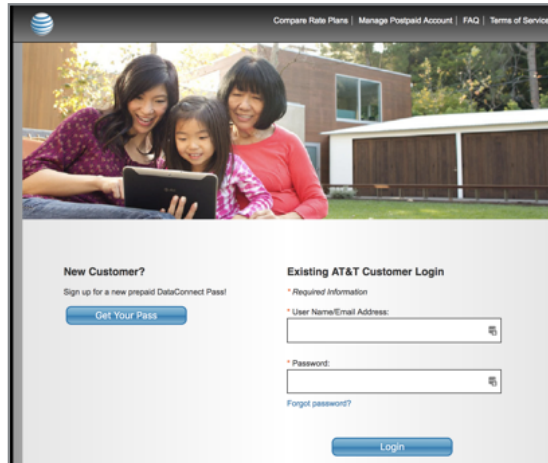

**Get connected to reliable data in five easy steps.**  
**The first year of 100GB's of data is on us.**

- 1** To activate your data plan, you'll need two pieces of information found near the router in your Airstream. In the front overhead cabinet, on the router box, you'll find a label with the IMEI and ICCID (photo below), which you'll need to sign up for cellular data.

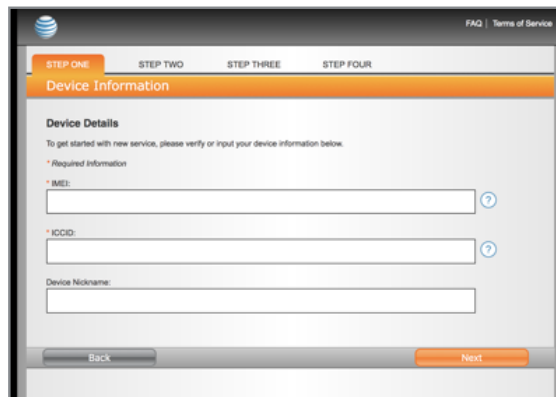

- 2** Go to [att.com/airstream](http://att.com/airstream), choose the 12-month 100GB Adventure plan and remember to complete the enclosed Rebate Form to cover the first year of 100GB's.

- 3** Click “Get Your Pass”. Even if you are an existing AT&T customer you must sign up as a new customer to activate your Dealer plan.

The screenshot shows the AT&T website's login page. At the top, there are links for 'Compare Rate Plans', 'Manage Postpaid Account', 'FAQ', and 'Terms of Service'. Below the links is a banner image of a family of four looking at a tablet. The main content area is divided into two sections: 'New Customer?' and 'Existing AT&T Customer Login'. The 'New Customer?' section has a sub-heading 'Sign up for a new prepaid DataConnect Pass!' and a blue button labeled 'Get Your Pass'. The 'Existing AT&T Customer Login' section has a sub-heading '\* Required Information' and two input fields: 'User Name/Email Address' and 'Password', both with asterisks indicating they are required. Below the password field is a link for 'Forgot password?'. At the bottom of the login section is a blue button labeled 'Login'.

- 4** Enter your IMEI and ICCID from the label on the router box and follow the steps to sign up for data.

The screenshot shows the AT&T website's 'Device Information' step in a multi-step process. At the top, there are four steps: 'STEP ONE', 'STEP TWO', 'STEP THREE', and 'STEP FOUR'. 'STEP ONE' is highlighted in orange. Below the steps is a sub-heading 'Device Information' and a section titled 'Device Details'. The text reads: 'To get started with new service, please verify or input your device information below.' Below this is a sub-heading '\* Required Information' and three input fields: 'IMEI', 'ICCID', and 'Device Nickname'. The 'IMEI' and 'ICCID' fields have asterisks indicating they are required. Below the 'Device Nickname' field are two buttons: 'Back' and 'Next'.

- 5** Once you've finished signing up for data, reset your device by turning the router off then back on using the key switch in the overhead cabinet. This will expedite the provisioning process, which shouldn't take longer than 15 minutes.

If you need help signing up for service or managing your data plan, please call

**AT&T Wireless Sales 1(888) 333-6651**

and share with the customer care representative that you have an Airstream trailer.

**See enclosed rebate form.**
