

50+ BEST-IN-CLASS FEATURES

ATLAS™

BEST-IN-CLASS COMES STANDARD.

FROM AIRSTREAM® + MERCEDES-BENZ®

“INSPIRED BY AN ICON”

If there is one thing that ties Airstream and Mercedes-Benz together, it is a relentless pursuit of the best.

After leading the industry for years with the Interstate, we were inspired as a company to go even further - and so the Airstream Atlas was born. Now, built on the groundbreaking, new Mercedes-Benz chassis and equipped with industry best features from Airstream, the Atlas redefines luxury and comfort.

The Airstream Atlas has simply outdone its predecessors and is clearly in a league of its own.

Over 50 best-in-class features come standard in every Atlas. Boasting QuietStream™ ductless air conditioning, a spa-like shower with teak inlays, and a full Murphy suite that features a Froli® ergonomic bed system, this Class B+ Touring Coach has all the luxurious touches you would expect, and gives you even more room to enjoy them.

If you want to experience the highest levels of comfort and sophistication when traveling, step inside the Airstream Atlas.

AMENITIES 18

DESIGN

Airstream's world-renowned reputation for quality and engineering is apparent in all aspects of the Atlas, from the exquisite exterior style to the artful craftsmanship of the interior.

Durable Flooring

The marine-grade luxury woven synthetic flooring you will find in the Atlas stays fresh and looking new, even after miles and miles of use. The pet-friendly, easy-to clean material floats on an inch-and-a-half of insulated flooring that is not only the best in its class, but also the quietest.

Solid Surface Countertops

Leaving home does not have to mean leaving all its comforts behind. That is the belief behind the high-end interior amenities inside the Atlas. Each Atlas comes with best-in-class solid surface custom countertops. And to match the countertops, the Atlas also comes with two solid, twist-lock pedestal tables that can be hidden away when they are not needed.

High-quality Cabinets

The cabinets in the Airstream Atlas are designed to stand the test of time. Carefully handcrafted, they lend a sophisticated appearance to the interior that is reminiscent of a private jet or a yacht. The framing uses stamped aluminum rather than the stapled and glued wooden frames used in other coaches. Soft-close brushed nickel struts allow the doors to close smoothly and quietly, and the outside latches are flush for a clean look.

Luxurious Living Quarters

The Atlas is designed to ensure relaxing days followed by peaceful nights, and it is all thanks to a power slide-out that expands the living space and makes even more room for the Murphy suite. Enjoy plenty of space to kick back on the comfortable Villa® power sofa, and then convert it into the integrated bed when it's time to say good night. And in the morning, it is easy to convert it back and tidy up.

Ergonomic Sleep System

The Murphy bed is outfitted with a Froli® Ergonomic Sleep System that ensures you start each day refreshed and well-rested. The interlocking springs provide a supportive sleep surface that is supremely comfortable. After all, what is more luxurious than a great night's sleep?

Interior Décor Options

In the Atlas, you will find best-in-class design in every detail. Each of the five available décor palettes is appointed with beautifully coordinated colors, finishes, and fabrics. Select the combinations that appeals to your taste for a truly personalized feel inside your luxurious and spacious Atlas.

Exterior Design and Finish

When Airstream and Mercedes-Benz come together, you know you will get a touring coach that exceeds your expectations – and the Atlas does exactly that. From the beautiful body lines and sleek curved walls to the chrome trim package and seamless transitions, the Atlas exudes elegance and luxury from any angle. A hidden power entry step emerges to welcome you aboard, then recesses smoothly back into the coach's body. Gleaming Alcoa aluminum wheels, a totally unique 40 piece body kit, and Mercedes-Benz taillights with Airstream and Mercedes badging round out the touring coach's sophisticated look.

PERFORMANCE

While the interior of the Atlas is all Airstream, the chassis and engine are all Mercedes-Benz, and our belief in “the best or nothing” is evident throughout. Or, in this case, maybe it should be “best-in-class or nothing.”

Six-Cylinder Mercedes-Benz Diesel

What good is best-in-class beauty if it is missing best-in-class power and performance? The Airstream Atlas leads the way with a standard Mercedes-Benz 7-speed, 3.0 liter, 188 horsepower V6 turbo engine. Thanks to its 325 lbs. of torque, you will experience superior performance under any conditions. Fast acceleration, unbelievable torque, and impressive fuel mileage – on top of legendary reliability. So even when your map is marked for the most remote locations, you will trust the Atlas to take you there and back.

PERFORMANCE

Air-Ride Suspension

Ride on air. This suspension system automatically adjusts as you drive and improves what's already superb handling and stability. Not only does it provide a higher level of comfort for passengers, it is easier on your tires and brakes, too. You will enjoy mile after mile of smooth rides with less maintenance as you float off to new destinations. The experience of riding on air comes standard with every Atlas – anything less than the best just will not do.

Multi-Function Steering Wheel

You will not want to take your hands off the luxuriously plush leather-wrapped steering wheel. Thanks to its multi-function controls, you can operate the MBUX Infotainment System, make a phone call with your Bluetooth® enabled phone, or adjust your stereo settings – without ever having to let go.

Diesel Generator

Stay off the grid for longer thanks to the Atlas's 3.2kw Onan® Quiet Diesel Generator. Its design minimizes noise emission for a quiet, peaceful experience each time you use it. And, you can operate the generator through the Atlas's best-in-class multiplex touchpad electronic control system.

QuietStream™ Air Conditioning

No matter where your travels take you, the Atlas's QuietStream™ Climate Control System helps keep you cool in virtual silence. Its integrated venting blends seamlessly with the Atlas's sleek interior design aesthetic. And the only thing you will notice when it is on is how comfortable you feel.

PERFORMANCE

Premium Chassis

Built on the next generation legendary Mercedes-Benz Sprinter 3500 cut-away chassis, the Atlas offers superior on-road dynamics. On every trip, you will experience incredible handling and better lane control. Heavy-duty shocks, springs, stabilizer bars, and brakes go the extra mile to ensure every journey is smooth, safe, and comfortable. Where others might offer add-ons or upgrades, these items come standard with the Atlas – where excellence is the standard.

SAFETY

Safety should not be considered luxury. That is why,
in the Atlas, advanced and active safety systems are
standard – and most are best-in-class.

Rear and Side View Cameras

While you are likely focused on what is around the next bend, the Atlas makes it easy to see what is behind you too. A rear vision camera, which is nighttime-enhanced, displays on a panel where the rearview mirror is normally located. The panel features directional lines to make backing up even easier. Side-camera displays appear as well, so you get an even wider view of your surroundings.

Additional Safety Features:

- Active Blind Spot Assist
- Active Lane Keeping Assist
- Traffic Sign Assist
- E-Call Assist
- Active Driver Attention Assist
- Active Rear Cross Traffic Assist
- High Mounted Third Brake Light
- Wet Wiper System
- Front and Rear Parktronic Sensors
- High Performance Headlights

SAFETY

Airbags and Safety System

The Airstream Atlas is not just one of the safest vehicles on the road – it is the very safest in its class. In addition to the dual front airbags, driver and passenger side window airbags greatly reduce the risk of head and facial injuries. And thorax airbags provide added protection in the event of a side impact. So you will feel confident in reaching your location safe and sound.

Collision Prevention

Mercedes-Benz has always believed the best way to survive an accident is by avoiding one in the first place. With that in mind, the Atlas's active collision assist system uses radar to constantly monitor closing speeds between your vehicle and the others around it. If the system determines a collision is likely, it will calculate and supplement the necessary brake force to slow you down in an attempt to avoid an accident.

AMENITIES

Sometimes it is the details that matter most. That is why we have not overlooked a thing. The Atlas is packed with premium features that anticipate every need. They are amenities that you will appreciate if you wish to truly travel well. And you will have more room to enjoy them than ever before.

AMENITIES

Aerodynamic Power Awning

With the push of a button, the best-in-class full-length power awning stretches out to create a comfortable, shady spot where you can lounge. Its integrated appearance makes it as beautiful as it is functional, and three support arms hold it sturdily in place. Take in a scenic sunset, then switch on the awning's LED lighting – its dimmer provides you with just the right level of evening glow. A seismic sensor auto-retracts the awning if the wind kicks up and threatens its stability.

AMENITIES

MBUX Infotainment System

The Atlas now comes standard with the intuitive and easy-to-use MBUX Infotainment system from Mercedes-Benz. All of the features found in luxury automobiles are now incorporated into the Atirstream Atlas. With Bluetooth® technology, you can pair your phone using Apple Carplay® or Android Auto®, giving you the ability to make hands-free calls and respond to text messages or emails. The large and crystal clear in-dash touchscreen gives you the ability to zoom in and zoom out as you navigate the countryside. Being able to control the system through the touch screen or via the control panel integrated into the steering wheel, this convenient system is always within reach.

Power Shades

Oceanair power shades add a new degree of comfort and ease of use in the Atlas.

Cruise through the countryside in privacy and relaxation, as the UV-resistant sheer fabric and blinds subtly diffuse or block out light at your discretion. All shades are independently controlled through the on-board multiplex control system.

Luxury Features

Mercedes-Benz has a reputation for providing drivers with as much luxury and comfort as possible. The Atlas incorporates numerous Mercedes-Benz features that let you keep your focus on the joys of the road and not the tasks that come with being behind the wheel. For example, the Atlas features automatic rain-sensing windshield wipers as well as auto-dimming high performance headlights.

AMENITIES

Residential Style Lavatory

The Airstream Atlas was designed for maximum comfort whether you are setting out on an extended journey, or just looking for a weekend get-away. With that in mind, the Atlas lavatory was built to mirror that of a residential-style lavatory. Utilizing the entire rear of the coach, the Atlas lavatory has a spacious stand-alone shower, and a spacious closet. The beautiful countertop matches the solid-surface countertops throughout, and the aluminum and woodgrain accents bring a sense of style and richness seldom found in a touring coach lavatory.

Additional Best-In-Class Amenities:

- Aluminum ceiling and trim
- Hidden compartment in dash with phone charging capabilities
- Magic suede on walls and window boxes
- Adjustable LED lighting
- Door entry lighting
- Built-in cupholders
- USB and USB-C charging ports
- Pre-wired for satellite system
- Heated driver and passenger powered seats
- Single-remote keyless start
- Custom floor mats
- LED undercarriage lighting
- Extra sleeping space with optional cockpit bed

“INSPIRED BY AN ICON”

The Atlas touring coach matches the precision engineering of Mercedes-Benz with the design sensibilities of Airstream. Every inch is designed with comfort, style, function, and luxury in mind.

With more than 50 best-in-class features, it is the finest way to travel, whether you are using it for a long-term adventure or just want to enjoy a weekend road trip surrounded by fine amenities.

When you're ready to see the Airstream Atlas in person, find your dealer to schedule a tour. And download the Atlas brochure to have handy.
