

AIRSTREAM®

Single-Axle Travel Trailers

2023 Floor Plan Comparison

Whether you're upgrading to Bambi's comforts of home, hitting the road in Caravel's upscale style, or heading off-grid in the adventure-ready Basecamp, Airstream's lineup of single-axle travel trailers offers something for everyone. Lightweight, easy-to-tow, and built with more than 90 years of expert design and quality craftsmanship, our single-axle model lines are ready to make your travel dreams come true.

Bambi Key Points

- Bambi and Caravel share four identical floor plans in 16, 19, 20, and 22 feet, with major differences in décor, materials, surfaces, finishes, and exterior features. Bambi models all feature panoramic windows up front that wrap around dinettes in the two smaller floor plans and spacious beds in the larger floor plans.
- Note differences in bathrooms: An efficient wet bath (16RB), a unique expanding door/wall (19CB), and a wide bathroom across the rear of the trailer (20FB and 22FB). Sinks expand to double well in larger models, along with the inclusion of a convertible dinette midship for extras sleeping space.

Caravel Key Points

- While Caravel shares identical floor plans with Bambi, this upscale model line takes modern style and premium materials to the next level. Though the layout is the same, surfaces, fixtures, window blinds, upholstery, and many exterior features are different. Caravel was designed for longer trips, with larger cabinets, rear bumper storage, and “Nev-r-Lube” bearings.
- The Bambi 16RB and Caravel 16RB both have panoramic windows surrounding the front dinette, but in Caravel the rear also features a panoramic window (where Bambi’s is a single rectangular window) for gorgeous views upon waking up.

16RB

Basecamp Key Points

- Basecamp offers two floor plans at 16 and 20 feet. The panoramic windows up front wrap around the galley in Basecamp 16 and the convertible dinette in Basecamp 20. The galley is midship across from the wet bath in Basecamp 20. Both the standard Basecamp 16 and the REI Co-op Special Edition share identical floor plans.
- Note additional storage areas adjacent to the wet bath in Basecamp 20 and the swiveling tabletop in the 20-foot model's convertible dinette, which makes it easy to slip in and without disturbing others. The rear seating/sleeping area in both floor plans can be converted to a wide variety of setups to tailor it to your travel needs.

16
Weight: 2,650 lbs.

Key Points

- Bambi and Caravel each offer two décor options. Choose from the warm, sandy shades of Dune or the cool blues of Ocean in Bambi.
- Caravel offers dark gray tones in Tungsten and refined silver shades in Pewter. Bambi features durable Permatex Fabric seating, while Caravel upgrades the upholstery to the plush, easy-to-clean Ultraleather® found in our larger trailers.
- The standard Basecamp models feature three décors inspired by the wonders of nature. Though the floor plan is the same as its Basecamp 16 counterpart, the REI Co-op Special Edition features a unique décor with a variety of sustainable and post-consumer recycled materials.
