

AIRSTREAM®

Airstream Touring Coaches Length Comparison

When it comes to buying an Airstream Touring Coach, there are a variety of factors and features that you'll want to consider. Chiefly among them is the length of your new van, as exterior length dictates a lot about the interior floor plan. With lengths ranging from a nimble 19 feet to a just-right 21 feet and a spacious 24 feet, Airstream Touring Coaches have floor plans that cater to maximizing the interior space. But length is also an important consideration when it comes to how you travel and the places you can go in these incredible Class B recreational vehicles.

Airstream Touring Coaches: Length Comparison

A Variety of Lengths for Every Travel Style

Interstate 19
Weight: 9,050 lbs.

Seats: 6
Sleeps: 2

24 Feet

Atlas
Weight: 12,125 lbs.
Exterior Length: 24ft. 9in.
Seats: 4
Sleeps: 2

Airstream Touring Coaches: Length Comparison

19 Feet: Nimble and Maneuverable

- The 19-foot floor plan provides city-friendly maneuverability and can even fit in most standard parking spaces. With the ability to easily navigate city streets and parking lots, these vans make for great multi-use vehicles. Head out on a road trip – or simply head across town to grab groceries or pick up the kids from school.
- Both of these well-equipped vans are built on the powerful Mercedes-Benz® Sprinter van chassis and feature an efficient turbo diesel engine.
- Taking a page from the luxurious hand-crafted design and features of the larger Interstate models, Interstate 19 lays them out in an efficient and elegant floor plan.
- The adventurous Interstate 19X features rugged charm, adaptable gear storage, and convenient rear access for loading bikes, kayaks, and other necessities. Note the L-track storage running cross-vehicle in the floor in the rear living area of the 19X.
- Both models feature all the comforts of home, like an onboard kitchen, space-saving wet bath, air conditioning, furnace heating, hot water, and more.

21 Feet: The Right Size for Families, Couples, and Solo Travelers

- Rangeline comes in two 21-foot configurations: The standard configuration is great for couples or solo road trippers, while the optional pop-top adds additional sleeping and living space.
- Multi-use functionality is at the heart of Rangeline's European-inspired design, with flexible storage and versatile functionality in a comfortable, efficient space.
- The rear area converts from two benches with clever storage options to a wide sleeping space. L-track storage features in the floor allow you to quickly secure gear and luggage, while MOLLE panels on the rear doors provide additional gear organization.
- An optional pop-top adds even more functionality to Rangeline, with additional sleeping and living space that opens up a world of possibilities.

24 Feet: Four Models for a Variety of Travel Possibilities

- Interstate 24GT is the perfect vehicle for couples who want to hit the road on the adventure of a lifetime. Push button functionality throughout, a large wardrobe for hanging clothes, and a convenient workstation just behind the driver’s seat lets you relax and recharge in comfort.
- With seating for up to 9 passengers (7 in 4WD/AWD option), Interstate 24GL is the perfect vehicle for bringing along a crowd. Whether you’re tailgating at the big game or taking friends and family on a winery tour, Interstate 24GL has everything you need to entertain guests in ultimate comfort no matter your destination.
- With rugged styling and versatile gear storage, Interstate 24X is an adventure van with luxury to spare. Unlike many other adventure vans on the market, Interstate 24X features a fully plumbed wet bath – not a cassette toilet.
- Atlas: See the following page for more info on our largest, most luxurious touring coach.

24 Feet: Atlas in Depth

- The crown jewel of Airstream's motorized lineup, Atlas sits in a class all its own. We hand-build the walls and rooftop so we can expand the interior living space, which we outfit with luxurious amenities and all the features you need for traveling comfortably.
- With its wide stance, Atlas features one of the most luxurious bathroom setups in any Airstream. The three-piece bathroom spans the entire rear of the coach, with dedicated sink, toilet, and shower areas.
- Atlas has the only slide out feature in any current Airstream. At the push of a button, extend the slide out and reveal a spacious Murphy Bed.
- Note the wardrobe, corner galley, and wide counter in front of the seating area where a hidden flatscreen television is concealed and raises up when you want to relax with your favorite show or movie.
- Atlas is built upon the powerful Mercedes-Benz® Sprinter 4500 cab chassis, which allows for a massive 1,996 pounds of net carrying capacity and up to 4,000 pounds of towing capacity.
