

AIRSTREAM®

Class B Comparison Guide

Consider the Best-in-Class in the Class B Landscape

Buying a new RV is no easy task, especially when there are so many options on the market. That's why we've collected the distinct features that make each Airstream touring coach above-and-beyond in quality. In this guide, you'll learn which Airstream Class B is the right fit for you today, and for years down the road.

Let the adventures begin.

Interstate[®] 19

The Interstate 19 takes everything in the #1 best-selling Class B diesel motorhome and wraps it neatly in a 19-foot package — about the size of a standard parking spot. Enjoy every luxurious amenity and every advanced safety feature. And most importantly, have the time of your life.

INTERSTATE® 19

Industry Comparison

Though there are multiple 19-foot Class B RVs, you'll discover that others on the market have fewer standard options when compared to the Airstream Interstate 19. Additionally, it's common to find manual equivalents to our automated multiplex controls for blinds, lighting, and more. What others believe to be cost-saving decisions, we consider as compromises to the ultimate user experience. In an Airstream, best-in-class comes standard.
