

**AIRSTREAM®** Atlas

2026 TOURING COACHES

## About Atlas

With its roomy interior, expansive bathroom, and full slate of amenities, the Atlas Touring Coach is the crown jewel of our luxurious line of motorized touring coaches. It's built on the legendary Mercedes-Benz® Sprinter cab chassis and inspired by our trailblazing Airstream Interstate series. But Atlas is no ordinary motorhome: With its wide body, power slide-out, and understated automotive styling from grill to bumper, we affectionately call it a Class B+. Atlas is the standard for those who believe a well-traveled life begins with the very best.

Atlas is designed to give travelers plenty of room to start with — and then expand to make things even roomier and more luxurious via a power slide-out. The fully appointed interior features a wide galley, residential-style bathroom, and a plush lounge that quickly and easily converts to a bed. Solid-surface countertops, seemingly endless amounts of overhead storage, and touchscreen interfaces round out the Atlas experience.

On the road, the Atlas provides a driving experience par excellence. A 2.0L turbo charged high output 4-cylinder diesel engine delivers power and performance under the hood, and we select every available safety and comfort feature Mercedes-Benz offers. With the Advanced Power system, and up to 17.2kWh of usable power in the optional Advanced Power Plus, you have more power, simplicity, and off-grid capability.

## Floor Plan

Atlas is the only current Airstream motorhome to include a power slide-out, and we've taken care to do it right. On the road, the slide-out is retracted and fits seamlessly with the hand-crafted automotive body style. At the campground, it extends with the touch of a button on the multiplex control panel. Once extended, you have more room to relax on the couch or pull down the Murphy bed to turn in for the night.

A spacious bathroom spans the entire rear of the motorhome. Behind the sliding pocket door is a residential-style space with a stunning shower, a cedar lined closet and vanity, and a toilet. Enjoy continuous hot water, faucets and fixtures, and special touches like a teak shower inlay and LED accent lighting.

# Exterior Features

With its wide stance and hand-crafted automotive styling, Atlas is a time-tested work of Airstream craftsmanship. An extensive paint and bodywork process is complemented by Triple Nickel Chrome Finished wheels for sleek automotive styling. Air ride suspension delivers an exceptionally smooth driving experience while a full slate of sensors, cameras, and drive assist features provide best-in-class safety and awareness. Ample external storage is cleverly hidden behind locking body panels and a power entry step conveniently retracts out of sight. At the campsite, the powered armless awning creates a wide outdoor seating area with ample LED lighting incorporated into the patio and undercarriage. The new Advanced Power System offers industry-leading battery capacity and the convenience of a single-fuel-source design—delivering greater flexibility, freedom, and off-grid capability than ever before.

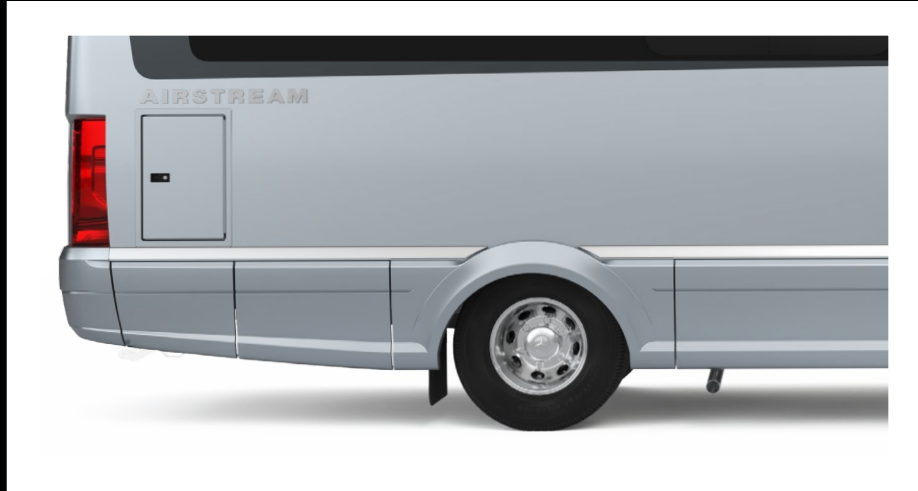

**1** Refined new grille adds subtle sophistication to familiar Airstream styling.

**2** A powered, armless awning creates a wide exterior seating area.

**3** Stay connected with a Starlink High Performance In-Motion system that comes standard. \*\*\*\*\*

**4** Air Ride Suspension delivers an exceptionally smooth ride with less road noise.

**5** Safety sensors and cameras provide 360-degree awareness and peace of mind.

**6** Upgrade to the Advanced Power Plus System for even more power and off-grid capability.

# Specifications

Chassis	Mercedes-Benz® Sprinter 4500
Engine	Mercedes-Benz® 2.0L Turbo Charged High Output 4 Cylinder High Output Diesel
Emissions	BlueTEC SCR Technology, 50 State – EPA/CARB Standards
Horsepower	208 HP / 332 lbs torque
Transmission	9G-Tronic Plus
Wheelbase	170"
GVWR/GCWR	12,125 lbs / 15,250 lbs
Alternator	280A
MPG*	16-18 Estimated Highway
Chassis Safety System	Mercedes-Benz® Adaptive ESP® (Electronic Stability Program)
Tow Package	Mercedes-Benz® Hitch, 7 Pin Trailer Plug, Brake Control Pre-wired
Tow Capacity**	Up to 4,000 lbs
Trailer Safety System	Mercedes-Benz® Trailer Stability Assist System
Overall Length	24' 9"
Overall Height	10' 6" (including A/C)
Overall Width	7' 11"
Interior Height/Width	6' 6" / 7' 4.5"
Seats/Sleeps	4/2
Tank Capacities	23 gals (Fresh), 31 gals (Grey), 27 gals (Waste)
Diesel Fuel	24.5 gals
Air Conditioner	15,000 BTU Quietstream™ Ducted with Heat Pump
Heated Tanks	Fresh and Grey Tanks (12V)
Refrigerator and Freezer	9.1 cu ft with Stainless Insert, (12 V)
Microwave	1.1 cu. ft. Convection Microwave with Air Frying

\*\*\* New Vehicle Limited Warranty. Individual components may vary. See Owners Manual for specific warranty coverage and information.  
\*\*\*\* Weights are approximate. See Vehicle Sticker for specific vehicle information.  
\*\*\*\*\* Starlink service plan required.

# Why You'll Love It

- Featuring the only slide-out in Airstream's fleet, Atlas's interior space expands at the push of a button, revealing a cleverly concealed Murphy Bed when it's time to catch some rest.
- Marvel at the residential-style bathroom that spans the entire rear of the coach, complete with a teak-inlaid shower, wide sink counter, and toilet.
- Relax with a premium audio system and flat screen television that lowers into a concealed position when not in use.
- Fifteen coats of cut-and-buff paint and finishing work completes Atlas's sleek automotive exterior styling.

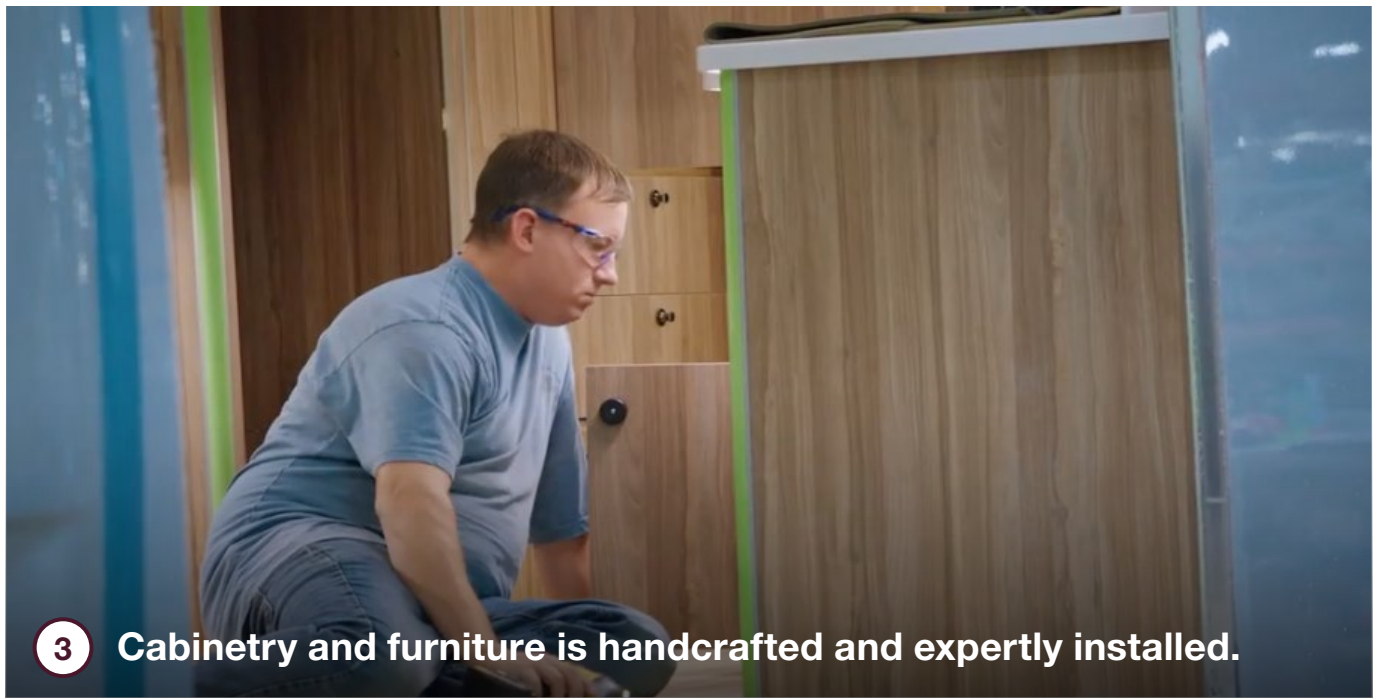

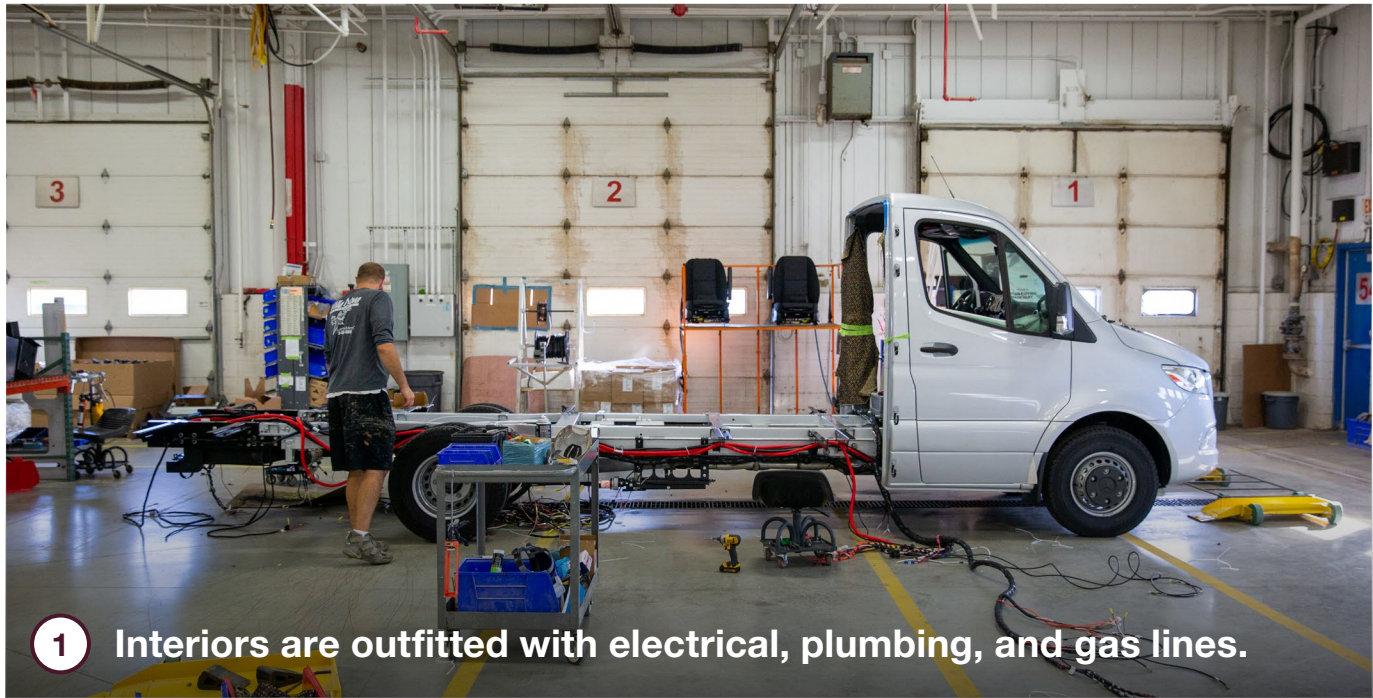

# How It's Made

Each Mercedes-Benz cab chassis arrives in Jackson Center fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople hand-build the exterior walls and roof in-house while undercarriage features like generators, holding tanks, and batteries are installed. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, gas lines, and comfort systems. We handcraft every cabinet and storage locker in our woodshop, which are then installed along with the shower, seating, and galley appliances. Extensive paint and fiberglass bodywork completes the exterior. And like every Airstream product, Atlas is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.
