

AIRSTREAM® Interstate 19GT

# A Winning Combination of Luxury and Efficiency

Interstate 19GT is our smallest, nimblest touring coach yet. At 19 feet, it's only slightly longer than the average SUV on the road. That means easy parking and maneuvering to just about any location. With 10.3 kWh of lithium power, this innovative system fuels your appliances, outlets, and induction cooktop—so you can enjoy off-grid comfort without sacrificing the everyday conveniences.

For **pro pickleball player Tyson McGuffin,** little things make all the difference. He practices his serve, volley, and groundstroke hundreds of times in preparation for each match. He lifts weights, targets endurance, and zones in on the mental game, so that he can rally when he needs to.

Off the court, having familiar snacks and meals on-hand, being able to park close to the venue, and knowing he can rely on comfortable A/C, help Tyson to perform better and recover quicker.

Tyson's quest to be the best pickleball player in the league is a family affair. His wife, Meg, and their four children, are always there to cheer him on. This journey wouldn't be possible without his team. And the Interstate 19GT makes the whole team comfortable.

### Unmatched Competition

Pickleball requires strength, but also precision. It's as much about stamina as it is about grace and skill. The same is true for the Interstate 19GT. With ample storage in overhead lockers and cabinetry, you can bring along all of your gear and necessities. And every detail is thought of and put into practice, so that you can stay organized and ready to go.

# Go Farther and Stay Longer

The 2026 Interstate 19GT's standard Advanced Power System gives you the freedom to camp at the mountains, the beach, or courtside. Designed for comfort and connection, it delivers reliable, renewable power every time you hit the road.

#### **Details:**

- 10.3 kWh Lithium Battery
- 240W Solar Power
- 3,000 W Inverter
- Single Fuel Source Heating + Hot Water
- All-Electric Appliances

#### Upgrade to

## Advanced Power Plus

For extended trips and off-grid stays, the optional Advanced Power Plus upgrade boosts battery capacity to 17.2 kWh. Installed by your dealer, it supports multi-night use and more energy-intensive needs.

Having it be accessible at tournaments – having it be right in the parking lot... it's a place that I can come back to either before matches or after matches... it feels like home."

- TYSON McGUFFIN

#### Interior Features

Interstate 19GT's thoughtful design delivers everything you need for exceptional travel experiences. You feel it in the surfaces, the fabric choices, and the clever use of space. Its plush Ultraleather seating and marine-grade vinyl flooring are durable and easy-to-clean. Spacious overhead storage lockers keep things secure in transit and close at hand when you need it. And at the push of a button, the sofa converts to a wide sleeping area so you can wake up ready to tackle the next hike, the next match, or the next day on the water.

**Explore More Interstate 19GT Features** 

Powerful off-grid energy independence for more versatile travel

Control shades, A/C, lighting and monitor tanks European-style wet bath neatly organizes and power levels

everything in one space

Choose from four dècor packages to match your style

Induction cooktop, large sink, and plenty of counter space

#### Décor

It feels so modern, with a bright-airy interior that seems much larger than just 19 feet."

#### The 19GT Floor Plan

The Interstate 19GT is one of Airstream's most compact and luxurious motorized models. The powerful Mercedes-Benz® turbo diesel engine makes the Interstate 19GT driving experience so enjoyable – with powerful getup balanced with impressive fuel economy. And with the standard Advanced Power System, you can run the A/C, appliances, and power your life even when far from a traditional campsite.

#### Exterior Features

Built on the powerful performance of the legendary Mercedes-Benz Sprinter van chassis, the Interstate 19GT is packed with exterior features that prioritize entertaining, camping, and enjoying the outdoors. The sliding door automatically opens, and a powered step extends for easy entrance. With the new Advanced Power System, roof-mounted solar panels, and upgraded components, you'll have all the power you need to confidently take on the road ahead.

240 watts of solar panels on the roof harvest the free, abundant power of the sun.

The powered awning extends and retracts at the push of a button.

The standard Advanced Power Package combines a powerful battery system with a convenient single-fuel-source heating and hot water system.

Refined new grille adds subtle sophistication to familiar Airstream styling.

Safety sensors positioned around the exterior of the coach give you comprehensive situational awareness.

Fox 2.5 Performance Elite shocks keep handling sharp and the ride smooth, even with a full load.

### Exterior Colors

#### Tenorite Grey Metallic

Elegant, understated and ready to roam

Exquisite, prestigious, and gracefully distinguished

#### How It's Made

Each Mercedes-Benz® Sprinter van chassis arrives in Jackson Center, Ohio fully loaded with safety and security features and one of the most powerful and dependable engines under the hood. Our expert craftspeople add external features like RV windows, vents, air conditioners, awnings, and undercarriage features like holding tanks and batteries. Standard seats are removed and re-upholstered with plush Ultraleather, while the interior is outfitted with electrical wiring harnesses, plumbing, and insulation. We hand-craft every cabinet and storage locker in our woodshop, which are then installed alongside showers, beds, tables, and kitchen appliances. Every Airstream touring coach is put through an extensive water check to ensure there are no leaks before quality inspection teams test every component, system, and function before it goes out the door to a customer.

# INTRODUCING Interstate 19GTX

**Hightech Silver** 

**Tenorite Grey** 

#### **Adventure Refined**

The Interstate 19GTX builds on the 19GT with a rugged, adventure-ready exterior, including body-coated finish, all-terrain tires, and brush guards with LED lights.

Inside, it retains the 19GT's luxurious interior, blending comfort with capability for a refined retreat ready to tackle every journey without compromise.

Mercedes-Benz®

#### Roll with the Best®

Product information, specifications, and photography in this brochure were as accurate as possible at time of printing. Photographs may contain some features that are optional on your vehicle.

Since we continually strive to improve our products, actual products may differ. Prices and specifications are subject to change without notice. All capacities are approximate and dimensions are nominal. Some features or options may be different or unavailable in other countries.

WARNING – The recreational vehicle weight must remain within the manufacturer's specified chassis weight limit. Do not overload the recreational vehicle through the addition of water, options, cargo or otherwise. Your safety depends on not overloading the trailer, axles, and tires.

AIRSTREAM®, the Airstream travel trailer trade dress, and all related model names, slogans, logos, trade dress, and trademarks are owned or used under license by Airstream, Inc. All other trademarks are owned by their respective owners.
