19 FOOT GLOBE TROTTER

22 FOOT SAFARI DOUBLE

26 FOOT OVERLANDER DOUBLE

30 FOOT SOVEREIGN DOUBLE

STANDARD SPECIFICATIONS

THE STANDARD AIRSTREAM Every Airstream is built to the same rigid construction standards and must satisfy the travel specifications of the world's most adventurous roamers — the Wally Ryam Caravanners. Chassis, running gear, body design and basic equipment are uniform throughout all Airstreams. The Standard Airstream Cruising Fleet has the best in conventional appliances, such as ice-electric refrigerator, electric hot water heater, 110 volt wiring, copper water lines with easily accessible input connection, and regulation drainage outlet.

THE LAND YACHT SERIES If you plan to spend time away from the beaten path you probably will want one of the Land Yacht series. All Airstream Land Yachts are completely outfitted for extended stays away from the standard light, water and sewer connections. The equipment that makes this self-containment possible includes a pressure water system with tank and 12 volt air compressor, 12 volt electrical system (in addition to the regular 110 volt wiring), 12 volt light fixtures and 12 volt battery, a butane gas refrigerator and butane gas water heater, an automatic switch-over regulator for the two butane gas tanks, a marine type toilet with spray flushing device to conserve water, and the Airstream Sanitizer to provide toilet conveniences away from a sewer hookup. Even a sewer hose carrier is included.

THE INTERNATIONAL LAND YACHT SERIES If you are seeking the last word in travel luxury, you'll investigate the International Land Yacht series. This series combines all Airstream engineering achievements with the ultimate in interior furnishings. Self containment is developed to the highest degree in these International models. The basic additional equipment above that included in an Airstream Land Yacht is: A water purifier; a 12 volt - 110 volt ceiling ventilator fan and a 110 volt ceiling ventilator fan; a 12 volt outlet for shaver and other appliances; two oversized butane gas tanks; a police-type radio antenna; a 12 volt exterior flood light next to the entrance door; and deluxe hub caps.

ADDITIONAL STANDARD EQUIPMENT BY SPECIFIC MODEL: OHIO

16' BAMBI — 20 gal. pressure water tank, 12V air compressor, 12V battery, all 12V as well as 110V lights, septic tank, 2 cu. ft. butane refrigerator, 9 gal. butane water heater, hose carrier, 3 burner butane range, toilet hand spray flushing device, folding table, tires - 6:50-13, 4-ply white sidewall nylon.

19' GLOBE TROTTER — 20 gal. pressure water tank, 12V air compressor, 12V battery, all 12V as well as 110V lights, septic tank, 3.5 cu. ft. butane refrigerator, 9-gallon butane water heater, hose carrier, 3-burner butane

range with oven and broiler, toilet hand spray flushing device, folding table.

22' SAFARI AND 22' FLYING CLOUD — 5.6 cu. ft. electric-ice refrigerator, 7 gal. electric water heater, drop leaf table (except in 22' SAFARI twin, which has pull-out table with removable leaves), 3-burner butane range with oven and broiler.

24' TRADE WIND, 26' OVERLANDER, 28' AMBASSADOR — 8 cu. ft. electric-

ice refrigerator, 7 gal. electric water heater, drop-leaf table, 4-burner butane range with oven and broiler.
