'54 AIRSTREAM SALON LINER

• The Salon liner was developed primarily for people who live in trailers for extended periods of time and yet must relocate often. The comfortable, livable, new interior arrangement used is a complete departure from conventional interiors. Lighter than previous Airstreams of the same length, the new weight distribution provides a towing performance that will exceed your expectations.

The new arrangement provides roominess heretofore undiscovered in Airstream trailers. Think of a 7' x 10' living room amidships, television stand, twice the bathroom area with shower separated from rest of facilities. Ability to segregate bedroom and ability to make a private dressing room by opening wardrobe doors against headers. Surprising amount of galley, drawer, wardrobe and storage space. All this plus the added features of light, all aluminum, all riveted lifetime AIRSTREAM construction. The Salon Liner is really a luxurious mobile home for those who must move frequently.
