1958  
MODEL

18 foot

## THE STANDARD OF EXCELLENCE IN LIGHT WEIGHT TRAVEL TRAILERS

• The Globe Trotter, the smallest star in Airstream's all star cruising fleet boasts an interior that amazes all who have seen it. Among the features are an Airfoam divan, dinette combination that converts to a bed, a toilet or storage room, a hinged flip top formica lid over range for added work space, ice-electric refrigeration, television shelf, Airfoam cross bed, plenty of drawers, wardrobe and storage space. All of this so conveniently arranged that the unexpected roominess of this trailer surprises everyone. Other optional extra features are available to equip the Globe Trotter for complete self contained camping where normal facilities are not available.

• The Globe Trotter is a marvelous combination of compactness, maneuverability and large trailer convenience, that is wonderful for use as a sportsman's trailer at your favorite lake or stream. One that serves equally well for extended cruising and caravanning. The exterior construction features Airstream's famous all riveted, all aluminum, lifetime guaranteed aircraft construction. See your nearest Airstream dealer for full particulars.

• The ultra-sleek, improved streamlined appearance of the Globe Trotter is accentuated in no small part by Airstream's new exclusive full round, pre-formed front and rear upper segments. (Patent Pending) This construction used on all current Airstreams, sets them apart and makes them immediately recognizable.
